

Amendments to the Specification:

Please replace Paragraph [0045] with the following new paragraph.

[0045] The C# code inserted the REFRESH command **310 325** into the second position in the Extensible Web Part Menu **200** using the Index numbers of the *MenuItems* command using the following line of code:

WebPartMenu.MenuItems.Insert(2, Sample WebPartRefreshMenuItem)

where *WebPartMenu* is the name of the Extensible Web Part Menu **205**, and *Insert(2, SampleWebPartRefreshMenuItem)* is the method to insert the command at the second position in the menu.
